

Pass-It Transit System is a pre-assembled, intumescent device encased in a 2 part steel shell. It is designed to prevent the passage of fire between compartment floors as a pre-fit system as part of a modular build or retro-fit. Pass-It allows for multi-serve penetrations, where there is a requirement to change the service on a regular basis or allows for the prevision of services at the point of the being unknown. There are various sizes available depending on the number and size of the services. It can also be formed into a modular grid.

Pass-It has been tested and Certified as part the FSi Fire Stopping range. The Pass-It system can be installed across a variety services and substrates including,

- Flexible and Rigid Walls
- Multi-service penetrations

Areas of Use:

- To reinstate fire resistance through walls
- To allow for the penetration of multi-service penetrations
- Modular builds
- Regular changing of services
- Assumed working life 25 years
- For internal use

Advantages

- High performance intumescent
- Allows for flexibility in service location
- Allows mechanical movement of services
- Dry fit
- Manufactured and tested alongside the entire FSi Fire Stopping range in the UK.

Certification & Testing

- Tested in accordance with EN1366-3:2009 – Fire Resistance – Penetration Seals
- Certifire Accreditation – CF5237

Certifications

APPROVED
CF5237

Please refer to FSi Technical Data Sheets and Technical Manual for more information

Overview

Description	Result
Expansion rate – EOTA TR024	20:1
Expansion Pressure – EOTA TR024	1.30 N/mm ²
Application temperature	-5 to 40°C
Size	Various
Colour	Green metal shell
Associated products	Pyrocoustic® Fire Resistant Sealant,
Product Code	PASSIT
Shelf Life	N/A if stored in accordance with storage conditions.
